Subject	CubelQ Announces a Document Management System for GDPR Compliance

CubelQ Announces **General Data Protection Regulation Document Management System - GDPR DMS™**.

CubelQ's General Data Protection Regulation Document Management System - GDPR DMS™ it is a document management system designed and developed to help organization to comply with GDPR.

GDPR is a European regulation (European Law) establishing private data protection for European citizens. GDPR strengthens personal data protection for citizens and non-citizens within EU area and sets strict requirements on how personal data is processed, stored, shared in the various IT systems such as ERP, CRM, or OPS, and other. GDPR it is applicable to all European companies and to non-European companies doing business inside or outside Europe with European citizens.

CubelQ GDPR DMS™ as a document management solution helps you bring your content under control and establish the processes needed to achieve and maintain GDPR compliance. GDPR Implementation and continue compliance requires creating, filling and maintaining a number of documents for policies and procedures. It also requires various policy documents to be accessed by organization's employees either just after creation and publication or per case at hoc.

CubelQ GDPR DMS™ helps organization to comply with GDPR in two ways:

- Managing GDPR Policies and Procedures Documentation.
- Managing Documents Containing Personal Data.
